DETAILED ACTION

Claim Objections

1. Claims 4, 6-7, and 9 are objected to because of the following informalities:

I. As for claims 4, and 6-7, the phrase “paragraph (1)(a)” should be referred to as “claim 1, step a”. Appropriate correction is required.

II. As for claim 9, the method of claim 9 is a method of measuring signal skew, however, there is no measuring done on the body of the claim.

III. As for claim 9, the second plurality of programmable logic blocks are said to be connectable to the second destination branch, and later in the claim the first destination branch is connected to the second logic block.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. As for claim 2, “the one of the second plurality of logic blocks” and the “the one of the second plurality of logic blocks” are claimed to be the same even though they are part of different oscillators.

4. Claims 1, and 3-9 are allowable over the prior art of record.

5. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: As for claims 1, 3-9, the prior art of record fails to disclose either singularly or in combination a method of measuring signal skew wherein the instantiation of first and second oscillators are performed according to the steps of instantiation of claims 1 and 9.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stacy A Whitmore whose telephone number is (571) 272-1685. The examiner can normally be reached on Monday-Thursday, alternate Friday 6:30am - 4:00 pm.
